### YOUR HOSTS

Hola, my name is Lina. I emerged my passion from my joy and constant desire to share the delights of the truly Mexican food with other people as I have always done with my family and friends. I learned the secrets of the Mexican Cuisine from my mother, while growing up in Oaxaca which is one of the richest places in Mexico in culture and gastronomy.

Hi, I'm Sam Jimenez, I'm passionate about craft beer, good wine and Mexican spirits, specifically Mezcal. I've been in the hospitality industry for 26 years and I've worked from bars, to restaurants to 5 diamond hotels, both in the U.S. and Mexico. Tulum is my home now and I'm currently a brand ambassador for an artisanal mezcal brand called "Gracias a Dios". I am happy to share my secrets with you.

If you love relaxing and experiencing new things, this might be an experience you are looking for.

Enjoy the sound of the jungle and finish the day with the healing sound of crystal bowls overlooking the jungle of the Yucatan Peninsula

## YOUR HOST

Hi, I'm Cynthia Kendall. I discovered some years ago the vibrational sounds of the Crystal Singing Bowls. While you usually feel very relaxed, and often go into a meditative state, the high frequency sounds enter the cells of our bodies and rebalances them through oscillation and resonance. I'm happy to share this experience with you.

# SIAN KA'AN BIOSPHERE FIRE & WATER

For this trip, you'll wake up very early, but it's worth it, we promise!

After a one-hour ride, you will enjoy one of the Sian Ka'an's most impressive sights, the Muyil Lagoon that just started to shine in the morning sun. We will take a short walk through the forest, after which you will climb an observation tower for a view over the entire lagoon and the treetops. Our guide, Fernando, will point out birds and other animals that you most likely wouldn't discover on your own. The morning time is the most active time for many birds. After our birdwatching, you will board a small boat and ride to the famous floating river where your next adventure begins. Bring a light jacket because it can be a bit cool, but the walk back to the boat in the morning sun will warm you up again. Re-energize yourself with a typical Yucatecan breakfast at an intimate, local restaurant. You will return to your hotel around noon.

# MAYAN DISCOVERIES

Visit one of the most beautiful archeological sites in Mexico, beautifully set in a lush jungle just one hour from Tulum. You might get sweaty when climbing Nohoch Mul (voluntary), the second tallest pyramid on the Yucatan Peninsula; that's why we bring you to a beautiful hidden cenote afterwards to refresh and to explore the underworld of the Yucatan. After that, we visit the family of Sra. Catalina where she has prepared a special feast for us, a pib, an amazing chicken cooked under ground. Have you ever heard of the Meliponas? An endemic and sacred species of bees that don't sting but produce amazing honey? If you like you can harvest some honey yourself. On the way back to Tulum, we make a short stop in Macario Gomez where you can shop for handicrafts like dreamcatchers. Enjoy the late afternoon back in your hotel with a cocktail or swim, or just relax on a lounge.
